Hayat - RASED: In continuation of Hayat-RASED's work in election monitoring, we present a study on the analyzes and information of the composition of the 19th Parliament, due to our belief in the necessity of ensuring the flow of all information related to the composition of the parliament, MPs age groups, new faces that entered the parliament for the first time, and the names of partisan MPs and MPs within political currents.

In this context, Dr. Amer Bani Amer, General Director of Hayat-RASED, called on the members of the 19th Parliament to strengthen the channels of communication with the electoral bases and to devote participation in the decisions that are taken, in order to harmonize the performance and aspirations of the electoral bases and to build on their priorities within the regulatory and legislative frameworks.

The results of the study show that the number of new MPs who became members of the 19th Parliament reached 98, while 23 MPs from the previous 18th Parliament MPs reached the 19th Parliament, with 9 former MPs from Parliaments that preceded the 18th Parliament reaching the new current Parliament.

With regard to the political parties and currents in the 19th Parliament, the study showed that 17 MPs from political parties and currents reached the 19th Parliament, of whom 13 were registered in the party lists, and 5 of them were within the political currents allied with the parties. The results showed that only 4 parties reached the 19th Parliament, namely, the Islamic Action Front Party with 5 MPs, the Islamic Center(Wasat) Party with 5 MPs, the United Jordanian Front Party with one MP, and the Jordanian Loyalty (Wafa') with one MP. It should be mentioned that the votes obtained by the winning parties' lists, reached 145,386 out of 1,387,711 voters in the elections.

As for the distribution of MPs according to age groups, it was found that the average age of the 19th Parliament reached 51.8 years, and it was found that 15 MPs were within the age group of 30-40, while 43 MPs were within the age group 41 - 50, with 51 MPs within the age group 51-60, and 21 MPs were over the age of 61. It should be noted that the youngest MPs are Eimad Al-Adwan, Marwa Al-Saoub, and Yazan Shdifat at the age of 32 years old, while the oldest MPs being Nawwaf Al-Khawaldeh from Mafraq Governorate, at 74 years old.

Regarding the total number of votes obtained by the lists that won seats in the 19th Parliament, the number of votes reached 1,060,151 out of 1,387,711 voters in the elections, which is 76.4% of the total votes, and 22.8% of the total number of those entitled to vote in Jordan. As for the total number of votes obtained by MPs who won seats in the 19th Parliament, their vote count reached 604,126, and the percentage of votes obtained by the winners reached 43.3% of total votes in the elections, which is 13% of the total number of those entitled to vote in Jordan.
